

JET AVIATION

EXECUTIVE JET CONVAIR 880

The interior is a creation of our design department, and is furnished in an exclusive, forty passenger configuration. All modifications on the aircraft, as well as exterior paint and complete refurbishing of cockpit and cabin have been performed by Jet Aviation.

The interior is divided into three sections, the forward, stateroom section being equipped with king-sized bed, video television, lavatory and vanity, and executive seating corner, with secretarial desk, telephone, typewriter and telex.

The lounge section offers a generous sofa arrangement which can also serve as sleeping accommodation, the stand-up bar, phonograph, radio, tape-player and video television providing a living room-like atmosphere. A U-shaped divan accommodates eight people for full-course meals or business meetings.

The aft, first-class section, with sixteen seats and two additional sofas for six passengers or crew rest, is equipped also with a video television and audio system.

The airline-type galley, with large storage compartments, guarantees meal provisioning for long-range flights to areas with limited catering uplift facilities.

CONVAIR 880 TECHNICAL DATA

Serial Number	58
Span	36.58 m
Length	39.42 m
Height	11.07 m
Cabin Interior width	3.29 m
Maximum zero fuel weight	121.500 lbs
Maximum take off weight	193.000 lbs
Maximum landing weight	155.000 lbs
Total fuel capacity	12.538 gal
Normal dif. pres.	8.3 psi
Design cruise speed	375 kts/0.89 mach
Maximum range	3000 nm + res

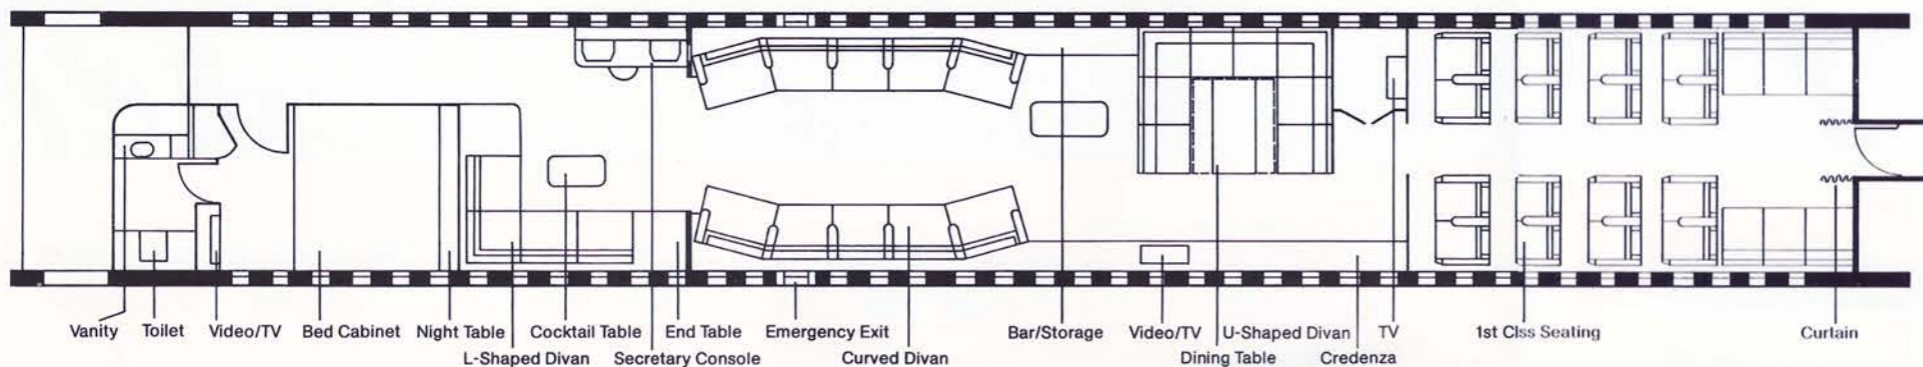

AVIONICS

Fully equipped to meet present FAR 91 standard

ENGINES

General Electric CJ 805-3B
Single spool, axial flow turbojet
Take off thrust per engine

11.650 lbs
